

A fun opportunity to grow + eat + learn in a school garden!

THE EDIBLE ACADEMY

Learning in the Outdoor Classroom

June 21 & 22 | 8am~3pm | Gregory-Lincoln Educ. Center

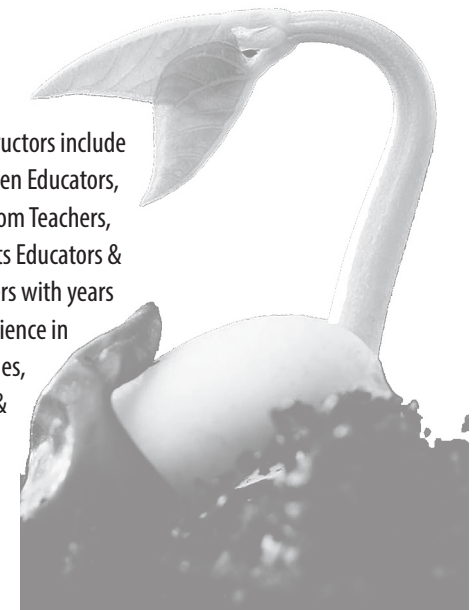

This summer two-day workshop provides educators, garden coordinators and parents with hands-on experience that will help you use your gardens and Outdoor Classroom as exciting educational tools. Explore lessons in gardening and culinary arts that support TEKS objectives in the core subjects, plus make learning memorable and tasty too! **\$50, lunch included, 12 CPEs.**

Seed-to-plate lessons will include:

- Soil Science • Growing Gardeners • Plant Propagation • Healthy Harvests
- Culinary Cooking using fresh garden produce • Plus, two Garden Tours!

NOTE: This workshop is designed for attendees with an existing school garden. Garden design and construction will be covered in the "Starting a Community or School Garden" workshops scheduled for June 17 or August 12, 2017.

Workshop Instructors include veteran Garden Educators, certified Classroom Teachers, Culinary Arts Educators & Master Gardeners with years of growing experience in Organic Vegetables, Habitats, Orchards & Permaculture Principles.
